EDUCATION

NIT HAMIRPUR, Hamirpur, Himachal Pradesh
B.Tech. in Electronics and Communication Engineering

2021-2025
CGPI : 8.49

SKILLS

Languages : C, C++ , JavaScript, SQL
Frameworks : ReactJS, NodeJS, ExpressJS
Coursework: Data Structures and Algorithms, OOPs, DBMS, Operating System, Computer Networking
Core Domain : Digital Electronics, 8051 Microcontroller and Embedded Systems
Dev Tools : VS Code, Git, GitHub, Postman, MongoDB Compass

PROJECTS

Personal Portfolio | [HTML](#), [CSS](#), [Reactjs](#), [Tailwind](#)

[Project Link](#) ↗

- Designed and developed a **visually appealing, fully responsive** personal portfolio website using **Tailwind CSS**. The design emphasized aesthetics and ensured an exceptional experience across a range of devices.
- Showcased projects, skills, and achievements through interactive components built with **ReactJs**. Integrated animations and reusable elements to enhance engagement and ensure a seamless experience for visitors.

FlexTrack web-app | [Reactjs](#), [CSS-styled components](#), [Express.js](#), [MongoDb](#), [JWT](#)

[Project Link](#) ↗

- Built and deployed a fitness tracker application using **MERN stack**, enabling users to track, manage, and categorize workouts efficiently. Streamlined API operations and added interactive elements to elevate user engagement.
- Implemented robust security measures, including **JWT-based authentication** and **Bcrypt** password hashing, to ensure secure user access and protect sensitive data from unauthorized access. Optimized performance achieving a **1.2-second fully loaded time** and **96%** GTmetrix score.
- Created and tested **6+ RESTful API** endpoints using **Node.js** and **Express.js** for managing users, tracking activities, and organizing blogs with optimized **CRUD** operations

Budget Buddy | [React.js](#), [Bootstrap](#), [Express.js](#), [MongoDb](#)

[Project Link](#) ↗

- Architected a robust income and expense tracking application using the MERN stack, enabling **efficient real-time data management**. The app allows users to monitor their financial activities with accuracy and ease.
- Structured seamless navigation and user-friendly UI using **React Router**, simplifying financial tracking for users with account creation feature. Also, refined backend performance, achieving a **1.6-second load time** and **94%** GTmetrix score, highlighting improvements in website speed and user experience.
- Integrated **MongoDB** for secure storage of financial data, enabling efficient organization and retrieval of transactions. Affirmed seamless access and persistence of sensitive user information across sessions, safeguarding data integrity.

ACHIEVEMENTS

- Successfully solved over **450+** problems across **Leetcode** and **geeksforgeeks**.
- Ranked **389th** in **Codechef's Starters 85** Division 4 contest, showcasing proficient coding abilities and problem-solving skills among a pool of skilled competitors.
- Secured an **State Rank-10** in Uttar Pradesh (stage 1) of **National Talent Search Examination(NTSE)**. This accomplishment highlights my strong analytical and cognitive ability at a competitive level.
